FEDERAL UNIVERSITY OF PARAÍBA
GRADING SYSTEM

1. To pass a course, the student must achieve:
   I.   75% (seventy-five percent) attendance to didactic activities;
   II. Final average equal to or over 5 (five).
2. The academic performance will be expressed by a grade between 0 (zero) and 10 (ten), assigned to each partial test, to the final exam, and to the average resulting from them.
3. To pass a course with no need to take the final exam, the student must:
   I.   Achieve the minimum attendance required for the didactic activities; and
   II. Achieve the arithmetic mean of the grades of academic exercises equal to or over 7 (seven).
4. To be entitled to the final exam the student must achieve the minimum attendance required for the didactic activities as well as reach the arithmetic mean of at least 4 (four) on the academic exercises.
5. In case the arithmetic mean of the grades achieved by the student on the partial tests lies below 4 (four), the grade obtained by him/her will be recorded as the final score for that course in that semester.
6. The final exam will consist of one test after the end of the academic period, which shall test the entire content of the course.
7. To pass the final exam, the student must obtain a weighted average equal to or over 5 (five), which will be calculated by assigning weight 6 (six) to the average of academic exercises and weight 4 (four) to the final exam.
8. CRA = Coefficient of Academic Performance $= \sum (M_i D_i)/F_c$
   Where:

   $M_i =$ final average of the course i

   $D_i =$ number of hours of the course i

   $F_c =$ total number of hours of the finished courses
